

LOUIS EDWARDS REPORTED TO BE MUCH IMPROVED

The condition of Louis Edwards, son of Policeman W. S. Edwards, who was shot by a guard in a convict camp at Mitchell, North Carolina, Sunday morning, was reported over long distance telephone last night as being improved. Edwards is in the State hospital at Raleigh, suffering from gunshot wounds in both legs. Ten pellets of lead hit him in his left knee and four in his right. His left knee was painfully lacerated by the heavy buckshot.

No word has been received concerning the camp guard, Walter McKinney, who shot Louis Edwards and another convict, Willie Owens, of Raleigh. Owens was not badly injured. McKinney had only been a guard for one day when the shooting occurred and he disappeared immediately after he shot the two men and has not been apprehended.

Edwards and Owens were taken Monday night to the State hospital in Raleigh. The former was so badly injured that he had to be carried on a cot. He suffered a great deal of pain, which was relieved by a doctor at Greensboro. Both men complained bitterly against the treatment accorded the prisoners at the camp which is located near Booneville, in Mitchell county.

The father of Louis Edwards up to a late hour last night had not received any word as to his son's condition.

Amibrosia, in Greek mythology, was the food of the gods, which preserved their immortality.

Only about 10 to 12 per cent of the U. S. roads are surfaced.

WONDERFUL HEALTH DISCOVERY

Medicine, a Thing of the Past for Weak, Thin, Nervous, Run-down, Anemic Conditions—Susto Concentrated Nutritive Tonic Food Works Better.

Yes, it is true, and physicians admit that it is nutrition and dietetic treatment, not medicine, that people need who have become thin, nervous, run down and anemic, and it will interest all of our customers to know there has been tested and approved at one of America's greatest Medical Colleges a Nutritive Tonic Food Tablet known as SUSTO.

It contains in concentrated form the essentials strengthening, life-giving elements of yeast, rice, peas and milk, together with beef protein, nuclein and iron, which are lacking in our daily food.

We are getting marvelous reports of how it is building flesh, health and strength for thin, weak, run-down people and delicate children seem to jump into health by its use.

SUSTO is especially valuable to convalescents, to those who are losing weight, to puny, delicate children, and to men, women and children in general who show signs of a run-down system.

We feel confident our customers will do well to try SUSTO and if it does not do all we claim for it we will return your money—adv.

PRODUCTION OF PETROLEUM HAS REACHED PEAK

Dr. McKee Claims It Will
Begin to Decline in Three
Years.

BUFFALO, N. Y., Feb. 14.—Petroleum production in the United States has reached its peak and probably will begin to decline within three years, Dr. Ralph McKee, professor of chemical engineering at Columbia University, declared in an address tonight before the Buffalo Engineering Society.

There is no likelihood of the discovery of new petroleum fields in this country, Dr. McKee asserted.

But, he declared, rich oil shale deposits, as yet practically untouched, are capable of supplying the nation's petroleum needs for hundreds of years.

He predicted the extraction of oil from shale would become one of the greatest industries in the country. "It is not commonly appreciated how large these shale deposits are," he said.

"If we consider only those oil shales which will furnish a barrel, or 42 gallons, or better of petroleum per ton of shale, we have in the Green River section of Colorado, Utah and Wyoming alone sufficient to furnish 64,000,000,000 barrels of petroleum, which amount is eight times larger than the total of the well petroleum that this country has produced since Colonel Drake drilled the first oil well in 1859 at Titusville, Pa. It is more than five times the total production of the world since well petroleum became commercial 60 years ago.

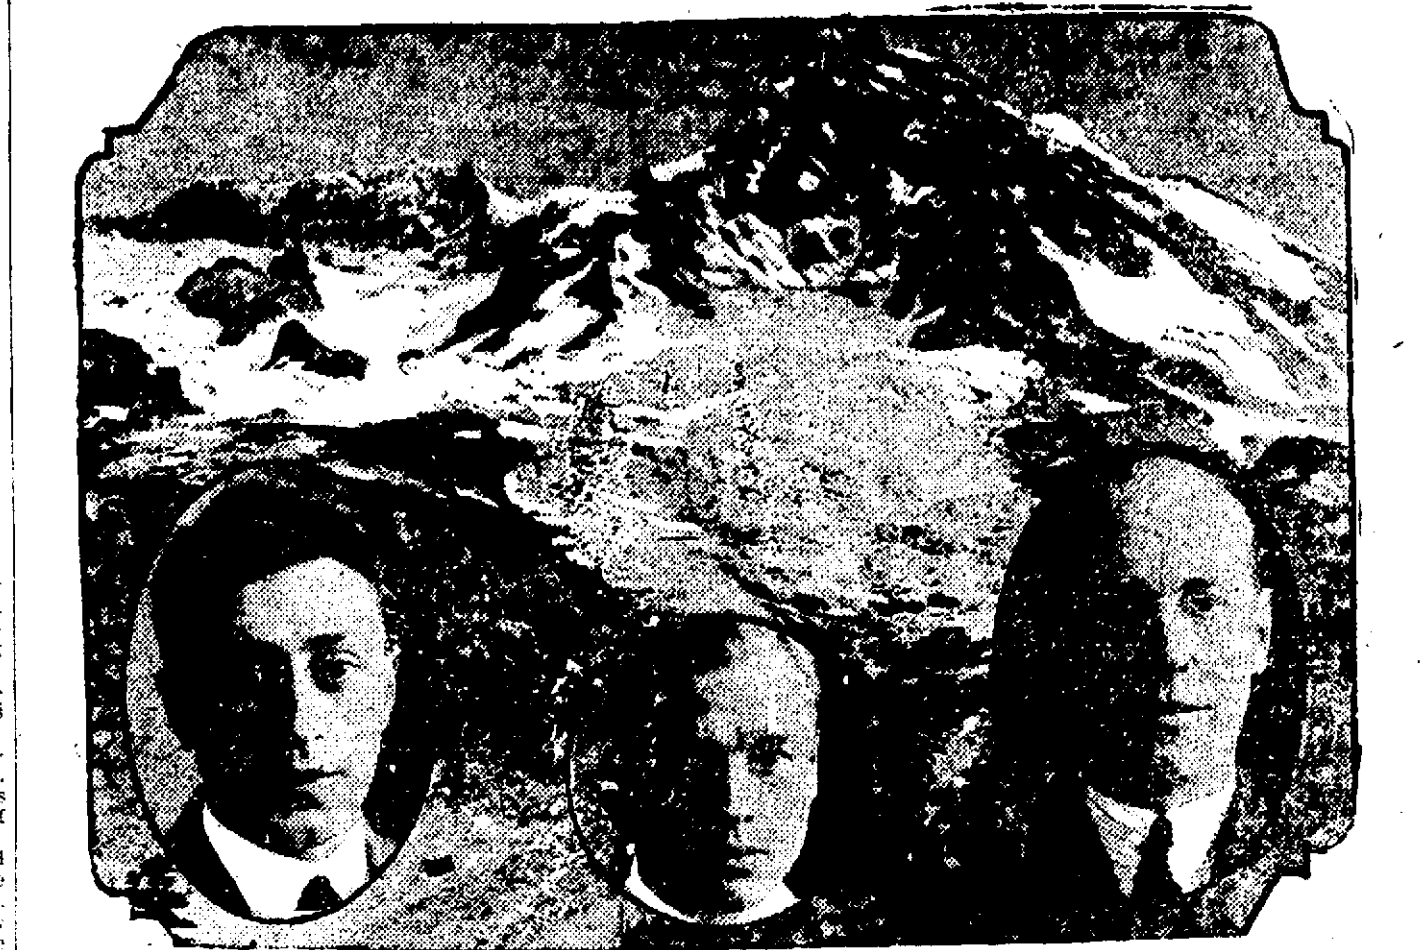

The demands for petroleum are increasing in this country at the rate of about 50,000,000 barrels a year. If this continues it will require each year 75 new plants, each handling 2,000 tons of oil shale a day and representing an investment of close to a million dollars each to give sufficient oil to meet simply this yearly increase in demands for petroleum. We have no other source of fuel oil or gasoline substitute in prospect which promises to furnish even a minor part of this demand. In other words, we have reason to look forward to utilization of oil shale as a very profitable chemical manufacturing industry which will rank with our largest industries in its labor and capital requirements and in value of output."

SENATE VOTES
FOR MORE PAY

RICHMOND, Feb. 14.—The Senate this afternoon rejected the proposed amendment to the constitution which had for its object the increase of the pay of the members of the legislature to fifty per cent more than they receive at this time. The vote was 22 to 13, and a motion is pending to reconsider the matter. It is believed that the House will kill any such measure and refuse to allow the people to vote on it.

More earthquakes occur in Italy and Japan than in all other countries combined.

SWISS WILL DEFY DEATH IN CLIMB OF MOUNT RAINIER

MT. RAINIER AND DARING SWISS WHO'LL TRY TO CLIMB IT IN MIDWINTER. LEFT TO RIGHT, JACQUES BERGUES, JEAN LANDRY AND JACQUES LANDRY.

SEATTLE, Feb. 15.—Despite predictions of seasoned mountaineers that certain death awaits them, three daring Swiss climbers are out to set a new record by making a midwinter ascent of Mt. Rainier, 14,414 feet high, the highest snow-clad peak in the United States.

Scaling Mt. Rainier is no easy task in the summer. And in midwinter, with many feet of snow obliterating trails and making treacherous shelves

ing out over crevasses, the fact has been considered impossible. No attempt at a winter ascent has ever been made heretofore.

But the Swiss, Jacques Bergues, Jean Landry and his brother, Jacques Landry, have records to show successful ascent of more than 30 peaks in the Swiss and French Alps.

They declare application of Swiss methods to old Rainier will be successful and will result in opening

mountain climbing as a new midwinter sport in the northwest.

A special detachment of army signal corps men will accompany the party as far up the mountain as possible and from this point will keep up communication by wireless telephone between the climbing trio and the outside world.

More than two weeks will be consumed in the ascent and descent, it is estimated.

\$3,100 IS RAISED IN "Y. W." CAMPAIGN FOR THE FIRST DAY

Every Prospect for Success
Despite Inclemency of
Weather.

With less than half of the 125 canvassers last night after the first day of the Y. W. C. A. finance campaign slightly more than \$3,100 in cash and pledges has been raised. The goal is \$10,000 and the campaign is to close Thursday night.

The management of the campaign committee had hoped to reach the \$2,300 mark for the first day and it is thought probable that this amount has been over-subscribed, though not yet reported. The inclemency of the weather hindered the work of the canvassers, especially late in the afternoon and kept a number of the workers from reporting at headquarters last night, where a force of "Y. W." workers were busily engaged in tabulating the results of the first day's campaign.

Efforts of the 125 canvassers will be redoubled today, many of the workers announcing their intention yesterday of getting out by 8 o'clock this morning.

It is hoped that a full tabulation tonight will show that \$7,000 and more has been subscribed.

The campaign committee felt certain that the results of the first day's work indicated that the full quota of \$10,000 would be raised this year. And this despite the fact that many subscribers of last year are cutting their contributions in half for this year. On the other hand some subscribers are doubling their contributions and many new contributors are to be found on the lists.

The most encouraging feature of the campaign is the fact that the \$3,100, plus that has been subscribed represents only 375 subscribers. It is expected that there will be over 2,000 subscribers before the campaign closes.

The canvassers report most encouraging results from the individuals approached for subscriptions. The percentage of refusals has been almost negligible, with many showing a keen interest in the success of the Y. W. C. A. in Danville as well as a remarkable understanding of the work that has been accomplished and the aims and purposes of the organization. All of which presupposes an appreciative and kindly feeling for Y. W. C. A.

It all tends to show that Danville citizens have kept themselves posted as to the work accomplished by the organization and realize what the Y. W. C. A. means to the girls and young women of the city in fitting them for broader usefulness.

The work of the campaign has been carefully organized, the city being divided into seventeen working districts. Each canvasser has fifteen persons to see; not only to see, but that canvasser will see each of the persons on her list and either get a subscription or a refusal. Mrs. A. B. Keen is chairman of the campaign committee and she has an able corps of assistants. In addition the regular Y. W. C. A. organization is lending every assistance to the campaign, which now gives promise of complete success.

MORE THAN 7 MILLION
BORROWED FROM POOR

CHICAGO, Feb. 14.—Investigation of the operations of Raymond J. Bushoff, 25-year-old promoter, today revealed that more than \$7,000,000 had been borrowed from poor persons, mostly of foreign extraction, during the last two years by three men who held out the lure of rich returns.

The amount of "borrowings" ranged from a few dollars up to \$100,000 of \$1,000. The average was approximately \$200. Of the \$7,000,000 total, Bushoff was declared to have obtained approximately \$4,500,000 while Leslie Harrington and H. P. West, known Bushoff associates of imitating his methods of business, were said to have obtained the remainder.

Warrants charging Bushoff and two of his associates obtaining money under false pretenses were issued yesterday and the police are searching for Harrington, who was declared to have left the city. West was taken today in a raid on the office of the Western Land Operators' company.

Mohammedans compute their time from the flight of Mohammed from Mecca, A. D. 622.

NINE MEN ARE HELD FOR GRAND JURY IN THEATRE CRASH

Connection With Collapse
of Roof of Knickerbocker
er Jan. 28.

WASHINGTON, Feb. 14.—Nine men were ordered held for the grand jury by the coroner's jury, which brought in a verdict tonight in connection with the collapse of the roof of the Knickerbocker motion picture theatre January 28, resulting in the death of 98 persons.

The nine men, all of Washington, were: R. L. Gearey, architect of the building; J. H. Ford, the engineer who designed the roof structure; Morris Hucker, building inspector when the theatre was constructed; Frank L. Wagner, the builder; Donald Wallace, general superintendent of construction; R. G. Fletcher, superintendent of the Hammett Fireproofing company which built the walls; John L. McDonald, the contractor who erected the steel; Thomas L. Costigan, engineer and computer for the District of Columbia building department, who passed on the plans; and Julian R. Downman, the assistant building inspector when the building was constructed.

The inquest was begun last Tuesday and scores of witnesses were heard before the jury began its deliberations behind closed doors. It was out seven hours before it returned its findings.

The coroner's jury in its verdict declared that "the collapse of the roof was due to faulty designing and construction and inadequate supervision and inspection."

It also submitted a number of recommendations, one being that "all theatres and places where the public assemble be closed and kept closed until such time as their safety is assured."

District Attorney Peyton Gordon said tonight that the case would be submitted to the grand jury as soon as possible. That body was in session now and the opinion was expressed informally that it would be in a position to take up the Knickerbocker findings by the last of this week.

Those who were recommended held for the grand jury were not taken into custody tonight, but it was said they would be given an opportunity to appear at the district attorney's office the first thing in the morning. Their bond, Mr. Gordon said, would be \$5,000 each.

The coroner's jury in its findings recommended that there be a thorough revision of the building code in the District of Columbia with heavy penalties provided for violation of any of its clauses.

SALVATION ARMY HEAD
WILL TELL WHITE LIE
FOR SERVICE'S GOOD

NEW YORK, Feb. 14.—Miss Evangeline Booth, commander of the Salvation Army, is not averse to telling "white lies" if it's done "for the good of the service."

She is preparing to tell plenty of them when, on May 1, she will lay aside her uniform, don the attire of a middle class New Yorker, and sail forth on a ten-day sleuthing tour, to learn how Mr. New York-Rich-Man and his wife feel toward their poorer brothers. At the same time the Army will conduct a drive for \$500,000 for its home service fund.

From a western city, where she is on a tour in behalf of the unemployed of the nation, Miss Booth yesterday wired for her New York headquarters plans for her drive of May 1 to 10, increased in "circles" she will approach the man with money to "good morning, I am Mrs. Sarah Jones, representing the Brooklyn Service Fund League. Last year, when thousands of men were out of work, we spent \$500,000 in houses and food for them in New York. What part of that \$500,000 do you want to pay?"

Miss Booth announces she will be willing to tell this strategy "that I conceal her identity, and perhaps hear an occasional choicest victim 'explode' with an expression of his attitude toward the unemployment situation, crime, homelessness, etc. That is the information Miss Booth will seek."

TWO ARE EXECUTED

MEXICO CITY, Feb. 14.—(By The Associated Press.)—Antonio Ruiz and Captain Luis de Perez of the Federal army were executed this morning in Chihuahua City after having been found guilty of rebellion by a court martial.

SPECIAL TAX ON CIGAR DEALERS IS NOT LEGAL

ATLANTA, Feb. 14.—The special State tax of \$75 on cigar dealers in cities of more than 50,000 population was declared unconstitutional by Judge W. D. Ellis, of Superior court here late today.

Suit was brought against the State comptroller general and the Fulton county tax collector by J. N. Hirsch and others representing 212 dealers affected by the annual tax which was imposed by the legislature last summer. Judge Ellis continued the temporary restraining order against collection of the tax pending the outcome of an appeal which the defendants announced would be taken.

GENE TUNNEY WINS

PHILADELPHIA, Feb. 14.—Gene Tunney, American light-heavyweight champion, easily defeated Whitey Wenzel, of Pittsburgh tonight, the referee stopping the bout in the fourth round of their 8-round match to save Wenzel further punishment. Tunney outboxed his opponent and landed blows almost at will.

THE FLAVOR LASTS

Girl Cannot Decide Which Road to Take

WORCESTER, Mass., Feb. 14.—If you were a young and pretty woman and had a score of eligible admirers, would you be given your choice between renouncing marriage forever and the income of a trust fund of \$60,000?

Perhaps some one can answer this question for Eleanor Katherine Berlin, of 974 Main street, a stenographer in a real estate office here.

"What would you do if you were in my place?" she asked a reporter for The New York World in answer to a question.

"Well, that is just the way I feel about it," she said as he shrugged his shoulders. "Ever since it became known that Charles A. Hamilton, of Chicago, to whom I was engaged, attached this unusual condition to a gift to me in his will, I have been asked the question over and over again."

"I don't know what I am going to do. Most girls, and I am no exception, look forward to the time when they will have their own homes. For years I have pictured that time in my mind. Now I am called upon to erase the thought from my mind forever or lose the income from this trust fund."

"Of course, it is a wonderful thing for a woman to know that she is independent. But isn't marriage something more dear than mere money? If I accepted this money would I be making a greater sacrifice than I decided not to? Isn't this after all the question which I must answer?"

GENERAL MARSHUR WEDS

Goodbye Boils!

S.S.S. Will Rid You of Boils, Pimples, Blackheads and Skin Eruptions.

A boil is a volcano—your blood is so thick full of poisons that these "boils" erupt into a boil. They'll keep "boiling" until you destroy them completely by the use of S.S.S., one of the most powerful blood-purifiers known to science. S.S.S. has stood the test of time. The power of its ingredients is acknowledged by authorities. Its medicinal ingredients are guaranteed to be purely vegetable. It cleans the skin of pimples, boils, blotches, blackheads, acne, eczema, rash and other skin eruptions, and does it thoroughly. It drives out the blood impurities which cause inflammation, makes the blood rich and pure builds up lost flesh. It helps to manufacture new blood cells—that's one of its secrets. S.S.S. is sold at all drug stores, in two sizes. The large size is the most economical.

Interviewed On Taylor Mystery

MARY MILES MINTER

Declares Taylor Was Best Friend

Mary Miles Minter Issues a Full Statement on Her Relationship With Him

LOS ANGELES, Feb. 14.—Mary Miles Minter, motion-picture actress, issued a statement today through her attorneys declaring that she had told investigators "all that she knew" of the life of William Desmond Taylor, motion-picture director, slain mysteriously 12 days ago.

The statement follows:

"There is no personal or financial sacrifice that I would not gladly make to bring the slayer of William Desmond Taylor to justice."

"Mr. Taylor was one of my best friends. His death was a great shock to me. I met Mr. Taylor first in 1919, when he became my director. I was then 17 years of age, and his inspiration, his unfailing courtesy and consideration not only to me but to all with whom he came in contact immediately won my highest admiration. "From 1919 until the day of his death Mr. Taylor was to me the symbol of honor and manliness, an inspiration, friend, guide and counselor—the symbol of all a girl admires in a man."

"His friendship was uplifting and his advice and aid were invaluable. I would be nothing less than ventriloquist if I did not now that

he is dead, raise my voice to proclaim what he was and to repudiate those who would besmirch his character. "I have told the authorities all that I know of both his life here and in the East. That I fear, has been of little aid to them."

"I cannot conceive the character of a person who would voluntarily wrong Mr. Taylor or cause his death. There is a grave and serious doubt at present as to whether the murderer of William Desmond Taylor, film director, "will ever be apprehended," declared Thomas Lee Woolwine, D.S. Attorney.

Mr. Woolwine made this declaration in a statement he issued depicting what he termed "faked and fraudulent interviews" on the case especially one purporting to have come from him.

NEW YORK, Feb. 14.—Mabel Normand, the film star, is not worrying about her connection with the William Desmond Taylor murder investigation, and she is not letting her parents Mr. and Mrs. Claude E. Normand, of West Brighton, worry either. Mr. Normand made public a telegram they have received from their daughter. The message read:

"Don't worry, mamma and papa. Unfortunately I was at the Taylor house a short time before he was killed. Had I not gone there for some looks my name would never have been mentioned in the affair. They all know out here that I know nothing about the sad affair and that I will be exonerated. Mabel."

Weds Stage Beauty Now Seeks Release

Marylander Claims to Have Been Lured Into Dawn Wedding After Party.

ELKTON, Md., Feb. 14.—Cupid John Barleycorn, a press agent and a divorce lawyer are all mixed up in charges made in a suit for annulment of marriage filed here today by John W. Montgomery.

It was only on January 26 that Mr. Montgomery was married to Peggy O'Dell, a chorus girl, the marriage causing a stir in Elkton.

Mr. Montgomery's plea to the court is, in brief, that he was intoxicated when he was lured into marriage by connivance and deceit, and that he met his wife a scant 12 hours before the wedding at 6 a. m.

At midnight Mr. and Mrs. Montgomery with two other couples, named themselves into a club in Philadelphia and said to the driver "Elkton, James."

Arriving here at 4 a. m., they woke the sleepy echoes by hanging at every door and window in search of some body to marry them. Eventually, guided to the marriage house clerks, home and the residence of the Rev. Daniel Forbes Lockyer, the young man married just as dawn crept over the hills, and taxied back to Philadelphia.

Mr. Montgomery's allegations to the court are that he is not a citizen of Maryland, but a resident of Maryland, and that he was lured into the marriage in Elkton until the annulment suit is decided.

He says he never met the lady before the wedding, and was in such a state as to be not quite certain whether it was a clergyman or a press agent who officiated at the ceremony, but he does recollect that a great deal of moral suasion was expended to induce him to say "Yes" at the proper moment.

Cine Diana Adele Gordon, of the

some chorus, assisted Miss O'Dell in the carrying part of it to the loss of his recollection he charges.

Youthful "Ponzi" Got \$7,000,000

CHICAGO, Feb. 14.—Investigation of the operations of Raymond J. Bischoff, 25 year old promoter, only revealed that more than \$7,000,000 had been "borrowed" from poor persons, mostly of foreign extraction, during the last two years by three men who had cut the hair of each as it is. The names of "Bischoff, Ponzi, and a few others up to the limit" of \$5,000.

The average was approximately \$1,000. Of the \$7,000,000 total, Bischoff was declared to have obtained approximately \$3,500,000 while Les, P. Harrington and H. P. W. whom Bischoff accused of swindling, had each of business, were said to have obtained the remainder.

Warrants charging Bischoff and two of his aides with obtaining money under false pretenses were issued yesterday and the other was said to have fled to the city of New York.

Democrats Plan To Capture The Ninth

WASHINGTON, Feb. 14.—Although the successful election of a senator from the state of North Carolina, George C. Peck, to the U. S. Senate, is being celebrated by Democrats, the party is also making their plans for the congressional fight next November, and it is expected that Congress will again be dominated by the Republican standard bearer.

Due to the victory won by Governor Lee Tankersley in the district of North Carolina, the party is celebrating the fact that they will elect a Republican leader in the district.

It is also making their plans for the congressional fight next November, and it is expected that Congress will again be dominated by the Republican standard bearer.

MEASURE IS DEFEATED

COLUMBIA, S. C., Feb. 14.—Charles C. Smith, a South Carolina election law, which would have voters absent from their home precincts on election day might vote by mail were rejected in the South Carolina House of Representatives today when a bill proposing such change was continued by a vote of 60 to 32.

Three Missing In Fire; Seeking Body Of Cox

RICHMOND, Feb. 14.—Though search was conducted all day yesterday and last night, no trace of the body of E. T. Cox, one of the proprietors of the Lexington hotel, had been found to a late hour today. The police admitted that one of the bodies remaining unidentified at the city home morgue might be that of the erstwhile hotel proprietor, but said they are puzzled by the failure to find a body near the room which had been occupied by the proprietor.

Detective Sergeant Gordon P. Smith directed the work yesterday of searching for the body of Cox. Cox's room was No. 100 on the fourth floor of the Lexington hotel, toward the extreme south-eastern part of the building. A considerable portion of all the floors in this part of the building remained standing, and it is not believed by the police Cox's body could have fallen down with other parts of the building unless he wandered far from his room.

On the window next to his room there was and still is, a fire escape. No body was found anywhere near where Cox's body would have been had he met death anywhere near his room. Everything was cleared from the floors underneath his room, and the floors were razed, but no trace of his body could be found.

Part of the burned mattress in his room was found on the bed which had remained standing. The fire sweep that part of the building with great fierceness, and for this reason it does not appear probable that he could have gone far from his room.

Chief of Police C. J. Sherry yesterday received a telegram from Chief of Police James R. Cantwell, of Charleston, S. C., containing the information that D. E. Ames, one of the missing, who registered himself from the South Carolina city, was not known there. This added a further tangle to the police efforts to clear up the list of those missing and dead.

The list of known dead today contained ten names, as follows: M. J. Fox, C. N. Thomas, H. F. Austin, F. L. Shaw, E. J. Mush, F. H. Poirer, W. K. Kennon, R. K. Keiser, E. O. Taylor, Jr. and Sam Ash.

The body of Mr. Ash was identified yesterday afternoon at the city home morgue.

About 65,000 pounds of coral, worth \$700,000 are taken annually from the coral beds of Japan.

"After that," said the man, "It's not the mule's fault"

Blame for injury depends on how much chance the victim had to make himself safe.

"The first time a mule kicks me," said a wise man, "it's the mule's fault. If it happens again, it's my fault."

A good many people are staying within kicking distance of tea or coffee, who have had a chance to know better.

They have learned that tea or coffee at night keeps them awake. They know it whips up the nerves. They know what medical opinion has so often said about the effect of the drug element in tea and coffee upon the nervous system—and how indigestion, headaches, high blood pressure and various ills so often follow the use of tea or coffee.

Knowing this, they fail to keep out of the way. Where does the

blame belong, then, when the final break-down comes?

There's safety in Postum, and charm, too. Postum has a full, rich flavor much like that of the better grades of coffee, and it is free from any harmful element whatsoever.

Whether or not you've had your warning from tea or coffee, why not step over on the safe side? Why not do what so many others have done—try Postum for ten days, learn how delightful and satisfying it is—and learn how much improvement there can be for you?

You can get Postum wherever good food and drink are sold or served, and it only takes a word from you to your grocer or restaurant waiter, to make this move to the safe side, at once.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health "There's a Reason"

Made by Postum Cereal Company, Inc. Battle Creek, Michigan

Why fade at 30?

Youthful maturity may exert a charm which youth alone can't rival. And certainly no woman should allow her youthful freshness to fade just when the joy of living should be at its height.

Keep your school-girl complexion and you can forget the passing years. The woman with a fresh, radiant skin will always seem young.

How to keep it—this is simple, as Cleopatra could tell you. The secret lies in daily intelligent care which will make beauty live-long.

How Cleopatra kept young

Girlhood days had long passed when the beautiful Egyptian reached the height of her fame and loveliness. Her charm grew greater with the years.

She knew how to care for and keep the smooth, flawless complexion which makes the possessor seem ever young.

Her method—thorough cleansing with the soothing oils discovered in ancient Egypt. Whatever cosmetics this queen of

beauty used, the foundation was a skin free from all injurious accumulations.

Why your face needs washing

Because the accumulation of dirt, oil and perspiration must be removed or they will ruin your skin. To let them collect in the pores is to invite complexion troubles.

Inevitably such deposits soon cause enlarged pores and coarse texture results. The dirt forms blackheads and carries infections which cause blotches.

The more powder you use to conceal this condition the worse it grows, for this only increases the clogging. Lotions and cold creams won't help—you must remove the cause.

Gentle cleansing with Palmolive will soon improve the condition, and don't be afraid to be thorough.

Massage the cosmetic lather into the skin so that it may remove every trace of impurities and

If your skin is dry, apply cold cream

after cleansing. Oily skins won't require such applications.

Throat, neck, shoulders

Need the same beautifying cleansing, for complexion beauty doesn't stop with the face.

Bathe with Palmolive and keep your skin smooth and white. It is a luxury all can afford.

For with all its fineness, it's mild soothing qualities, its gentle cosmetic action, Palmolive isn't an expensive soap. Popularity keeps the price low.

10 cents a cake

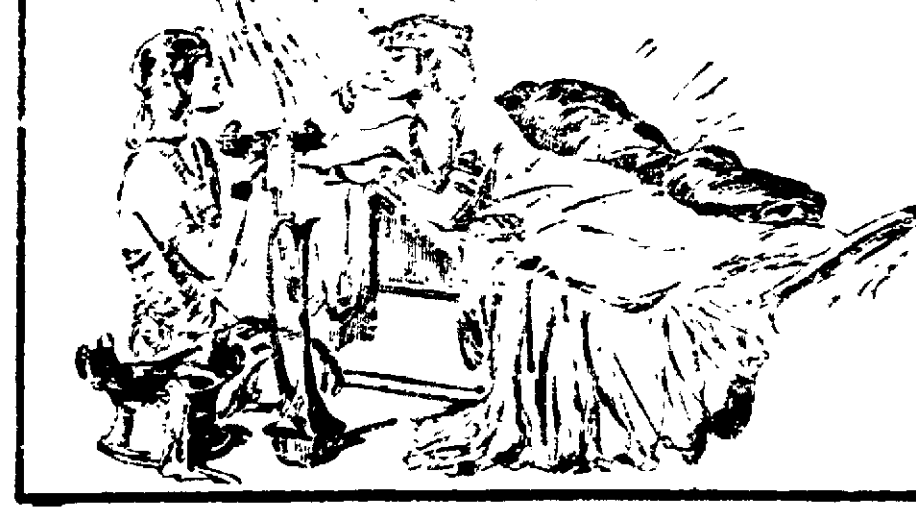

This modest sum is possible through gigantic production which keeps the Palmolive factories working day and night and the transportation of the giant mild oils in reducing volume.

Thus this finest facial soap, which if made in small quantities would cost at least 25 cents, is offered at the price of ordinary soap.

THE PALMOLIVE COMPANY, Milwaukee, U. S. A.
THE PALMOLIVE COMPANY OF CANADA, Limited, Toronto, Ont.

Superphone Will Guard Your Secrets

SUPERPHONE IN USE, AND ITS INVENTOR, R. D. DUNCAN, JR., CHIEF ENGINEER OF THE ARMY SIGNAL CORPS. THE SUPERPHONE IS ATTACHED TO THE REGULAR TELEPHONE. THE PARTY AT EACH END OF THE LINE MUST HAVE ONE.

By HARRY HUNT.

WASHINGTON, Feb. 14.—Love and business now can be transacted in secret via telephone.

The superphone solves all problems of crossed wires and uninvited listeners. Push a button and the superphone is connected, bringing absolute privacy. Several secret conversations can be carried on simultaneously over the same connecting line.

R. D. Duncan, Jr., chief engineer of the army signal corps research laboratory, has produced the superphone by experiments perfecting the original "wired wireless" invented 12 years ago by Maj. Gen. George Squier, chief signal officer of the army.

An extra telephone instrument is installed beside your ordinary phone. This is connected to the original wire, removing the necessity of wireless antennae, for the receiving and transmitting mechanism are purely radio in character.

The speaker talks into an ordinary microphone, high frequency alternating current being employed. The usual radio mechanism passes the sound vibrations on to the listener through an ordinary telephone receiver.

The superphone was perfected by Duncan primarily for army use, but its use in business and in the home is forecast.

Seek Sailor

Cast Adrift

NEW YORK, Feb. 14.—A score of ships of all kinds, from battered tramp steamers of the seven seas, to graceful, pleasure-freighted passenger liners, were leaving for ocean routes today on a mission of mercy. They were continuing the search for John Birkner, 24, the sailor who was cast adrift from the steamship Gaffney last Wednesday, 700 miles in an unrequited part of the Atlantic.

If Birkner's frail craft is still afloat, today's dawn marks the beginning of his seventh day adrift on the waters. The master of the Gaffney, Captain Walter Beckwith, advised every craft carrying wireless to seek the drifting sailor.

Birkner was one of four sailors ordered to lash a lifeboat in a terrible storm, when a giant wave heeled the Gaffney over. The lifeboat was swept into the sea, and Birkner with it. He clambered into the boat, but the Gaffney was already too far away to throw him a line. For six hours, Captain Beckwith cruised about, trying to get close enough to put a line aboard. But the high seas frustrated each attempt.

Monkey Gland

Patient, Missing

WASHINGTON, Feb. 15.—The whereabouts of Irving R. Bacon, monkey gland patient who mysteriously disappeared from his home in Atlantic City last Friday continued to be a mystery today to his son, Arthur Bacon, his son, who employed in the postoffice service division of the post-office department here.

Young Bacon expressed surprise when informed that the news dispatches today told of his mother making preparations to sell the furniture in the Atlantic City home on care for herself and two children. Bacon was planning to get in communication with his mother this afternoon.

Though Mrs. Bacon is reported to be slowly losing hope that her husband is alive, believing he has possibly jumped into the ocean from one of the Atlantic City piers, her son declared there was no reason to believe that his father had sought his own life.

The elder Bacon four months ago sought eternal youth through the transfer of a monkey gland into his body. The operation was highly successful, according to physicians.

Risks Her Life

Saving Dog That Had Guarded Her

SILVER CREEK, N. Y., Feb. 14.—Lydia Harris, a maid employed in the home of C. D. Livermore, lawyer, risked her life to save a dog which recently had protected her from attacks.

The Livermore house caught fire, the family and the maid escaped in night clothing. After they had arrived at a neighbor's house, Miss Harris thought about the dog and rushed back to the burning building to bring the animal out in safety.

A few months ago two men tried to kidnap Miss Harris while she was on her way home late at night, but the dog she saved today drove them away.

POLICE NOTIFIED.

MACON, Ga., Feb. 14.—The police and sheriff's offices here were requested tonight by Schley county officers to be on the lookout for two men, said to be soldiers, who had fled from Ellaville and who were headed toward this city on a motorcycle.

Although of slower combustion, kerosene contains more heat units, pound for pound, than does gasoline.

By a mirror arrangement, a compass in the top of an automobile tells the driver the direction he is going.

More Gas In Stomach and Bowels

If you wish to be permanently relieved of gas in the stomach and bowels, take Baalmann's Gas-Tablets.

Baalmann's Gas-Tablets are prepared distinctly and especially for stomach gas and particularly for all the bad effects coming from gas pressure.

That empty, gone and gnawing feeling at the pit of your stomach will disappear; that anxious and nervous feeling with heart palpitation will vanish, and you will once more be able to take a deep breath, so often prevented by gas pressure against your heart and lungs.

Your limbs, arms and fingers won't feel cold and go to sleep, because Baalmann's Gas-Tablets prevent gas interfering with the circulation; intense drowsiness and sleepy feeling after dinner will soon be replaced by a desire for some form of entertainment.

Your distended stomach will reduce by inches because gas will not form

after using Baalmann's Gas-Tablets.

"I cannot thank you enough for your great kindness. Since taking Baalmann's Gas Tablets I am feeling so well that I give you a short report of my improvement. My stomach and bowels feel so comfortable; the bloating is all gone; I can now take deep breath. That empty, gnawing feeling at the pit of the stomach is gone; no more feeling of fullness after eating. I rest well at night. In fact my stomach feels much improved in every way. Baalmann's Gas Tablets are just what I needed, and I can't say enough in their favor. Many thanks; may God bless you in your good work."—Rev. J. L. Shears, Benton Harbor, Mich., March 23, 1931.

Baalmann's Gas-Tablets in the yellow package can be had from any leading druggist. Price one dollar. J. Baalmann, Chemist, San Francisco, by inches because gas will not form

75 More Aliens To Be Deported

WASHINGTON, Feb. 14.—Another detachment of aliens similar to that which arrived at Ellis Island for deportation last week will leave San Francisco on the trip eastward Feb. 17. It was stated at the Department of Labor today. Officers in charge will bring the group by way of New Orleans, picking up aliens held for deportation along the Mexican border. At New Orleans they will take boat for New York. It is expected there will be about seventy-five deportees, the original detachment having been concentrated at San Francisco from Portland, Seattle and points along the coast.

No delay is expected in deporting the aliens, either of the last group or that which will arrive. Officials indicated sailings had been arranged before the deportees were taken to New York and they will be held at Ellis Island until the ships depart. The group will be split up and sent on various vessels. Virtually all European nationalities are represented.

The detachment of sixty-three now at New York is composed of persons ordered deported on all kinds of charges, including two or three anarchists. The detachment was made up from Duluth, St. Louis, Chicago, Cleveland and Detroit.

Judges Will Not Pay Income Tax

RALEIGH, N. C., Feb. 14.—The ruling of the commissioner of revenues that judges should pay an income tax is unconstitutional, according to a rule made by Judge W. A. Devin in the Wake Superior Court today, in the injunction proceedings brought by Judge Ben F. Long, of Statesville.

Attorney General J. S. Manning gave notice that the Department of Revenue would carry the case to the Supreme Court for a ruling in order that the commissioner of revenues would have the decision of the final authority in this matter.

It is estimated that 65,000 men died annually from the effects of alcohol before prohibition.

First American transcontinental auto race was staged in 1904 between Washington, D. C., and Seattle.

Metts, Campbell and Hamilton Cases Are Continued in Court

ROANOKE, Feb. 14.—Cases against former Revenue Officers J. H. Metts, C. M. Campbell and United States Deputy Marshal Charles A. Hamilton, indicted last year by a federal grand jury on charges of violating the federal prohibition act in connection with an alleged dope and liquor ring which was unearthed about one year ago by special agents from Washington, were continued to the August term of federal court here by Judge Henry C. McDowell yesterday at the opening of February term of this court.

The case against Fred S. Hoback, former United States narcotic inspector for Virginia, was also continued pending the outcome of another case, which he was convicted on last year and is now before the Circuit Court of Appeals.

Metts and Campbell gave bond in the sum of \$5,000 each for their appearance at the August term of court here. C. A. Hamilton was required to give bond in the sum of \$2,500 for his appearance here in August. The \$10,000 bond under which Mr. Hoback is being held, is not returnable until the first day of the August term of court, it is understood.

The case against B. C. Moomaw, a local physician, who was indicted on a charge of violating the Harrison drug act, was also continued and the defendant was required to give bond in the sum of \$1,000 for his appearance at the August term of court.

Choose Husband Like Frock, Judge Advises

WHITE PLAINS, N. Y., Feb. 14.—To lessen divorce, choose a husband with the same skill and care that you would exercise in purchasing a dress.

This formula for married bliss was advanced by Justice Seeger in granting a divorce to Mrs. Marie D. Stevens. Mrs. Stevens declared she was only fifteen years old when she met her husband, William, and married him ten days after their first meeting.

"The next time you get married," said the judge, "take a couple of weeks to think it over. When you are buying goods for a dress you go over all the goods in the shop. You ought to take at least as much care in picking out a husband."

Wireless Ends Misery Of Hospital Life

WOUNDED WAR VETERANS IN STATE ISLAND, N. Y. ENJOYING RADIOPHONE CONCERT BY MEANS OF A MAKESHIFT AMPLIFIER—SIMPLY A ROLL OF PAPER.

NEW YORK, Feb. 14.—You can turn your sickroom or hospital from a place of suffering to a combination theater, concert hall, lecture room and amusement palace.

All by the use of wireless. All you need is a wireless receiving instrument. You needn't go to the trouble of erecting an aerial for the springs of beds on which patients are lying serve as excellent aerials.

Radio amusement for hospital patients is becoming a common thing, now, says a current issue of Popular Science Monthly.

New York radio amateurs frequently live up sickrooms by lending their apparatus to hospitals.

A patient clasp the receiver over his ears. Hook the apparatus to his bedprongs and lies back easily in bed to "listen in."

The patient can lie at ease by the

hour hearing the gossip and news of the outside world on a stationing in endless variety the lectures, sermons, songs and music with which the great broadcasting stations are now filling the ether.

The ordinary wireless phone apparatus can amuse only one patient at a time.

One equipped with a loud speaker—a device that looks like a phonograph horn—one clear receiving outfit can furnish amusement at the same time for a whole hospital ward.

Ask the wounded soldiers at Fox Hills Hospital, State Island, N. Y., about radiophone entertainment: "Uncle Sam gave them a radio set last Christmas."

They'll tell you that the day isn't far ahead when the radiophone will wipe out forever the gloom and hopelessness of hospital life.

"MOVIE MADNESS"By HERBERT CARRINGTON,
Scientist and Author

NEW YORK, Feb. 12.—Our personality is built up largely by what we see. Our eyesight is our greatest educator. So true is this that it has been calculated that not more than six per cent of those born blind actually attain sufficient character and mentality to become self-supporting.

The "movies" are today a constant source of visual suggestions. And we are all creatures of suggestion! We are built up very largely by what we hear, feel and see.

Those who have seen movies in the making know that the directors dominate the entire cast, men and women alike. And it is a psychological fact that it would be easy for a strong director to carry his domination beyond the studio, for good or for evil.

Every actor or actress is better or worse for the role he depicts. None can live two roles forever, even on the stage and off, and escape having them commingled, any more than Dr. Jekyll could escape from Mr. Hyde. Usually the evil overwhelms the good.

There are two distinct kinds of pictures. Those that represent life as it is—extol courage, honor, sincerity and the higher qualities of man's nature. These are undoubtedly beneficial, and are a source of great good to the community, and to those who make them.

The other kind of pictures, appealing to mawkish sentimentality, and extolling the pettier emotions as jealousy, vanity, the worship of brute force and the frequent misinterpretation of the true values of life, are a source of great mischief, and lead to an entirely warped conception of society as a whole.

This sort of picture sacrifices fundamental truths in order to appeal to false sentimentality. For instance, a handsome criminal is shrouded in a cloak of romance. He is captioned "gentleman crook," whose finer instincts remain unstained, although he transgresses every law. And those who uphold the law, are either held up to ridicule or placed in an odious light.

What is this but a very subtle justification of crime? The natural effect of this upon young and untrained minds is to confuse actual vice and crime with heroic glamor.

The undoubted result of this can be no more than that many are led by these suggestions and false conceptions to a life of instinctive defiance to the law, or even into the commission of actual crime.

The recent murder of William Desmond Taylor, with its sordid horror and morbid revelations, could doubtless serve as an excellent "super-release!" The romantic scenario writer probably would go so far as to concoct some theatrical justification for this crime, and strive to weave a halo of romance about its perpetrator, even to the extent of marrying him to the heroine!

That's psychology of "movie madness."

Use This As Weapon to Preserve Present Basic Wage of Craft.

INDIANAPOLIS, Feb. 14.—Threat of a nation-wide coal strike on April 1 for both bituminous and anthracite union miners was proposed today to the special convention of the United Mine Workers of America.

The union's scale committee as the weapon to preserve present basic wages for soft coal miners, and in increases for the anthracite workers.

As soon as the report was presented the convention adjourned by an almost unanimous vote until tomorrow, without any action or debate on the scale proposal. Likewise, the threatened fight in behalf of Alexander Howat, the Kansas leader who was expelled from the union failed to come before the two thousand delegates, but it was said, it might develop later.

While no debate developed in the convention over the scale committee report, which included a small set of demands and a policy for action by the convention, the delegates held informal conferences throughout the day, debating the various proposals.

Directly the majority view coincided with that of the union officials who were said authoritatively to have fought by the report to win increases for the miners, and also force the coal operators into a joint wage conference with the union.

Among the committee demands included the following: Refusal to accept wage reductions in soft coal fields, the fight being to preserve present basic scales without any general increase; adjustment of "inequitable differentials" within and between districts; entrance of twenty per cent in wages for anthracite tonnage workers, and \$1 a day for day laborers; abolition of the automatic penalty clause for firing miners or operators violating working agreements; limitation of the hour day to the mine; pay and one-half for overtime; double pay for Sunday and holiday work; and weekly, instead of bi-weekly or monthly pay.

As a preface to the demands the report declared any wage cut would reduce miners' pay to bring "poverty, suffering and degradation in mining localities," and added "we do not believe the public asks that its fuel needs be supplied at the expense of a degraded citizenship."

As an addendum to the demands the report declared as a statement of policy that the coal operators must continue joint wage conferences with the union "or stand publicly charged with breach of contract." A provision of the existing agreement being cited as committing both miners and operators to joint negotiations this year. After directing that further efforts be made to get conferences, the report referred to all agreements ending on March 31, and then made this declaration:

"In the event no agreement is reached by April 1, we declare in favor of a general suspension of mining operations, such action being subject to a referendum vote of the membership of the United Mine Workers of America, such referendum vote to be held prior to March 31."

WASHINGTON, Feb. 14.—The Wadsworth bill creating a bureau of civil aeronautics in the Department of Commerce was passed today by the Senate and sent to the House.

The measure developed speculation by senators as to the future of aircraft. Senator Wadsworth, Republican, New York, predicting that "our children and most certainly our grand children are going to fly as freely through the air as we now ride about in flippers."

"We must prepare for that," the senator continued. "We must have rules of the road, traffic rules. We must have traffic regulations and regulations of right flying. None of these here can tell how great the development will be and in a time that we start preparation for the future."

TUCKER NOMINATED

LYNCHBURG, Feb. 14.—Harry St. George Tucker of Lexington received the nomination for Congress on the first ballot today when the Fourth district Democratic committee met at Stanton to select a successor to the late Representative H. D. Flood.

"Bulldog" Of Sea Will Be Retained

WASHINGTON, Feb. 14.—Under scrapping provisions of the naval treaty, the historic battleship Oregon will probably become a stationary floating memorial to her great days as "Bulldog of the navy."

Her big guns that roared in triumph at Santiago will be silenced; the pulse of her huge engines that drove her 14,000 miles to reach the fighting front will be stilled forever; but in appearance she will remain as she was to stir the pride of future generations of Americans.

The Oregon and the Illinois may be retained under "provisions of part 2, 111 (b)" a table attached to the treaty says, and part 2, 111, (b) of the document reads:

"A vessel shall be considered incapable of further warlike service when there shall have been removed and landed, or else destroyed in the ship:

"(1), All guns and essential portions of guns, fire control tops and revolving parts of all barbettes and turrets.

"(2), All machinery for working hydraulic or electric mountings.

"(3), All fire control instruments and range finders.

"(4), All ammunition, explosives and mines.

"(5), All torpedoes, war heads and torpedo tubes.

"(6), All wireless telegraphy installations.

"(7), The conning tower and all side armor or alternatively all main propelling machinery.

"(8), All landing and flying off platforms and all other aviation accessories."

The special naval board planning details of the scrapping program has given some thought to the problem of bringing the Oregon within the requirements of the treaty when it becomes effective and yet retaining the ship much as she was in the brave days of her career. Board members are satisfied that ample authority for this has been provided and the future of the ship as a monument to the valor of the men who gloriously sailed and fought under Clarke in 1898 seems assured.

It may be necessary to cut slits in the barrels of the 13-inch main battery rifles and other guns, filling the slits with soft material and painting over to prevent appearances. They could not be fired, therefore. Moving parts of turrets would be similarly disabled and to avoid stripping off the conning tower and side armor, the main shaft that drove the Oregon faithfully on her great voyage from San Francisco to Santiago probably will be cut and left to lie idle in its bearings.

It appears likely that efforts will be made to restore the ship as nearly as possible to her exact appearance on the day she overhauled the Colon, racing down the Cuban coast as last survivor of Cervera's fleet. The Spanish cruiser failed then to keep up the high speed for which she was built while the Oregon, despite 14,000 miles of grueling running behind her, exceeded her trial speed and the roar of her first 13-inch shell, sailing over the Spaniard's decks as the bulldog ran down the greyhound sent the Colon to her death on the beach rather than surrender adrift.

The Oregon had no wireless equipment nor aviation accessories in those days. She has been refitted many times as naval fashions have changed, but when she becomes at last under the treaty, an important relic of the great fighter she once was, she will look as she did when in her prime.

The Illinois is not in the same category. She was turned over to the State of New York for naval militia use after the destruction by fire in New York harbor some months ago of the old frigate Granite State. The battleship is now used as a barracks and preserver of her fighting equipment or machinery is not contemplated, as the ship has no particular historic value.

CENSUS TAKERS GIVE OUT OF CARD BLANKS

John B. Harvey, in charge of the religious census which was begun Sunday, stated last night that much success had been met with, although he was at present unable to give any figures, but would have them ready by the end of the week. The end to house canvass was begun Sunday and continued the next day, but many teams reported that their supply of cards had been exhausted. Any person desiring to obtain more such blanks may do so by calling at the T. M. C. A. or phoning 728.

DANVILLE VS. R. M. A. HERE TONIGHT ON THE MUNICIPAL HALL FLOOR

FOR SKIN IRRITATIONS

COLDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: It soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold, no matter how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.—adv.

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nausealess Calomel Tablets, that are Delightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger.

Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs—adv.

Don't cough

The violent paroxysms of coughing soon eased by Dr. King's New Discovery. Fifty years a standard remedy for colds. Children like it. No harmful drugs. All druggists, 60c.

Dr. King's New Discovery For Colds and Coughs

Make Bowels Normal. Nature's way is the way of Dr. King's Pills, gently and firmly regulating the bowels, eliminating the intestinal clogging waste. At all druggists, 25c.

INSURANCE THAT INSURES!

Wm. H. Holland Co., Inc. Danville, Va.
 Gentlemen: I wish to thank you for your prompt attention to the settlement of the fire insurance covering my building. The fire occurred on Wednesday the 18th inst., and the insurance covering my loss was adjusted to my entire satisfaction the following day.
 Yours Very Truly,
 DR. E. H. MILLER.

Waddill-Holland Co.

Phone 53

Hotel Barton Corner.

25 MILLION SUIT BY INSURANCE CO.

NEW YORK, Feb. 14.—The filing of a \$25,000,000 suit against the New York Stock Exchange, the estate of Jacob J. Schiff and other defendants named as managers of the re-organization of the Chicago and Eastern Illinois railroad company for alleged failure to account for profits derived from coal lands owned by the company, became known today when Supreme Court Justice Giegerich granted

ed a motion to eliminate Seymour L. Cronwell from the list of defendants. The suit was brought by the Mercantile Fire Insurance company and the Narragansett Mutual Fire Insurance Company of Providence, R. I.

In the complaint, a copy of which was filed with the order to dismiss, it is alleged that the railroad company purchased a large coal acreage having a mining tonnage estimated at 508,000,000 tons, and that the United States Steel corporation, which is made a co-defendant in an effort to attach funds believed to be due to the railroad, agreed to purchase 1,000,000 tons thereof a year.

It is alleged further that neither the railroad nor the defendants have accounted to the plaintiffs for the profits derived from the coal land and that the plaintiffs sold their stock holdings at low prices because they believed it the wisest course to pursue under the circumstances, thus becoming "entitled to damages."

The New York Stock Exchange is named as a defendant, it is set forth, because of its "winking" at an alleged violation of the State law, thus becoming guilty of "connivance, at least, in a constructive fraud."

Badly leaking valve sometimes makes a hissing sound when the motor is running.

Today's Fashion Hints

For Mid-Summer Wear

BY MARIAN HALE

NEW YORK, Feb. 15.—There is an air of quaintness about the fashions which are being shown for mid-summer wear. A trifle longer and a bit more full as to skirt, with snug little bodices, they hark back to the period of small waists, hips and the like.

The lattice trimming, which one finds on some of the newest gowns tends to lighten the effect of old-fashioned daintiness.

The Clair gown combines black canton crepe with soft mauve chiffon touched with ribs of silver ribbon.

The mauve chiffon, which is visible below the lattice scalloping at the hem line of the skirt, is a complete petticoat fastened to the dress at the belt. The petticoat in its most modern version is a slim sheath of soft material which is really a part of the gown—being fastened with the skirt at the waist line.

The hat, worn with the frock, also a Clair model, is of lavender tulle heavily washed with lavender tulle.

HARDING WILL VISIT HOME TOWN IN JUNE

MARION, Ohio, Feb. 14.—President Harding may return to his home here for the first time since his inauguration some time in June, to attend the Marion centennial celebration, it was announced tonight by James A. Knapp, chairman of the centennial committee. The centennial dates have been set tentatively as June 11 to 14.

In a letter to Mr. Knapp, the president said: "I think it reasonable to assume if the celebration is held in June I can be in attendance. If a later time is fixed, I think my participation quite unlikely because I am hoping to successfully work out plans to leave early in July for a trip to the Pacific coast and Alaska."

Leaky valves can be detected by turning the motor over with the crank to test for soft compression.

CORNERSTONES OF NEGRO COLLEGE WERE LAID

GREENSBORO, Feb. 14.—Bishop J. C. Hartzell, of Cincinnati, Ohio

Bishop Frank M. Bristol, of Chattanooga, Tenn., prominent ministers from Eastern States and several hundred students and former students of Bennett College attended the exercises held here today in connection with the laying of the cornerstones of two new buildings now being erected at the negro institute. The elaborate cornerstone exercises today opened with I. Garland Penn., of Cincinnati, secretary of the board of education for negroes of the Methodist Episcopal church, acting as master of ceremonies. In his opening remarks, Penn stated that all over the South there was evidence of good racial feeling and that North Carolina es-

pecially had done well by its negroes.

The cornerstones of the handsome new buildings were placed late this afternoon under the direction of Bishops Hartzell and Bristol. They warmly praised the heads of the well known negro institution for the splendid work they are doing for the negroes of the South.

Dr. J. E. Sheppard, of Durham, N. C., grand master of the negro Masonic order in North Carolina was expected to have charge of the ceremonies in connection with the laying of the cornerstones for the refectory, but he was unable to be present. The two bishops had charge of this ceremony.

Leaky valves can be detected by turning the motor over with the crank to test for soft compression.

ORDER PUBLICATION

Issued by order of the clerk of the Corporation Court of Danville, entered on the 14th day of February, 1934.

VIRGINIA

In the clerk's office of the corporation court of Danville, on the 14th day of February, 1934.

Blanche Crook Plaintiff

John B. Crook Defendant

against

The object of this suit is to obtain from the said court a decree dissolving the plaintiff, Blanche Crook, a vinculo matrimonii from the said defendant, John B. Crook, on the grounds of desertion and abandonment.

And an affidavit having been made and duly filed that the said defendant, John B. Crook, is a non-resident of the State of Virginia, it is therefore ordered that he do appear here with 10 days after due publication of this order once a week for four successive weeks in the Bee, a newspaper published in the city of Danville, Virginia, and do what is necessary to protect his interest in this suit.

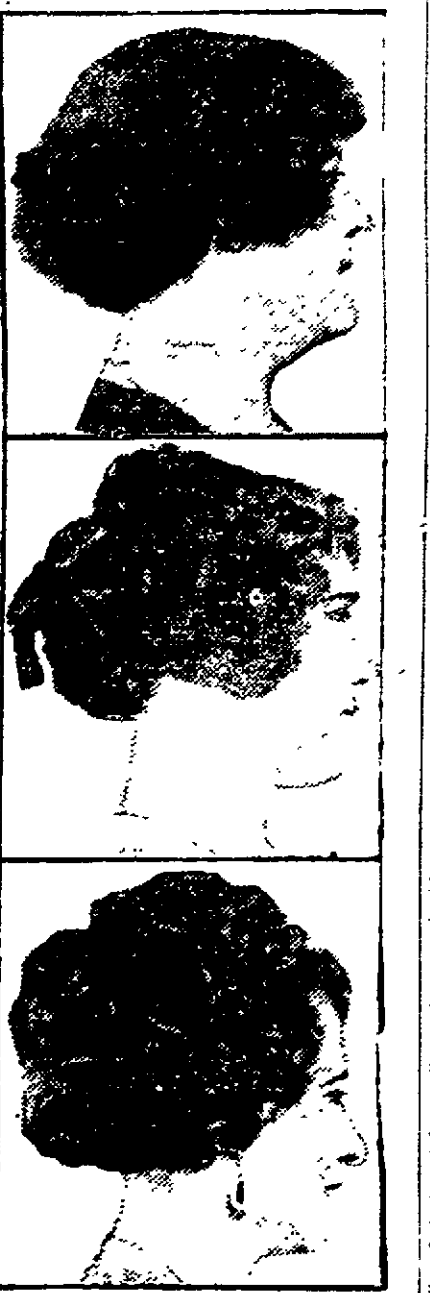

A Copy—Teste:

JOHN R. COOK, Clerk

Harry Woodling, Jr., P. C.
